They Don't Change

Once a Hupmobilist, always a Hupmobilist.

70% of Hupmobile sales are repeat sales, or—they result from owners' recommendations

Thousands of people who do not own Hups shift from car to car.

Dealers—everywhere—will tell you that Hupmobile owners "stay put."

Stop and think a moment—consult your personal experience.

Hup Owners "Repeat" Year After Year

Isn't it a fact that your next-door neighbor has had two or three or four Hups?

If they change at all—and scores of them drive the same Hup year after year-isn't is a fact that they simply change to another Hup?

If this is a fact—and you can satisfy yourself it is—isn't it a mighty important fact?

Why are so many owners of other cars merely negative in their loyalty to these cars... while Hupmobile owners are uniformly enthusiastic?

Why does the Hupmobile owner go out of his way to expatiate about the joys of his ownership?

Why does he take it upon himself to urge others to buy the Hupmobile?

You must know why it is, without being told.

It can't be anything else but supreme satisfaction and continuous service at a lesser cost.

If you think we are overly-enthusiastic - put it to the test.

Go to your Hupmobile dealer and ask him to give you facts and figures!
